

How to pay with Zelle

Zelle is NOT a bank account, it is a transfer method between your bank account and other people's bank accounts. Because of this, each bank may configure the Zelle interface differently. To pay the Montville Reunion with Zelle, you'll need to go into your online bank account, open the Zelle interface, and enter our Zelle tag (montville76).

For example, the Bank of America process requires the following steps the first time you send money to a new recipient:

1. From your online account, open the Zelle interface. For Bank of America, you would select the Pay & Transfer tab, then choose the "Send money with Zelle" option. You should see a prompt that says "Who would you like to pay?" and little icons representing the people you've paid most recently.

The screenshot shows the Bank of America Online Banking interface. At the top is a red header with the Bank of America logo and "Online Banking" text. To the right of the header are links for "Brenda J Huettnr", "Profile & Settings", "Saved Items", and "Log Out". Below the header is a navigation bar with links for "Accounts", "Pay & Transfer", "Rewards & Deals", "Tools & Investing", "Security Center", "Open an Account", and "Help & Support". The main content area is titled "Send money with Zelle" and includes the text "or send to other BoFA accounts you've added". Below this are tabs for "Send Money" and "Settings". A section titled "Who would you like to pay?" features a search bar with a dropdown arrow and a "Pay" button. Below the search bar is a "Recent" list of recipients: SAYRA, MELANIE CARNES, JAMES REEVES, WALTER REDISKE, ANDREW RAMIREZ, and NAYELI VIDAL. Each name is preceded by a circular icon with a letter. To the right of the search bar is a "Quick help" section with a list of questions: "What is Zelle?", "Contact not yet enrolled in Zelle?", "How do I receive money using Zelle?", "Where do I find my QR code?", and "What's a Zelle tag?". At the bottom of the page is a "Recipients" section with a "+ Add recipient" button.

2. Under "Who would you like to pay?" enter the reunion Zelle tag "montville76". You don't need the email or phone number, just the Zelle tag. You will get a message that says "We couldn't find this recipient" but don't panic! This just means you haven't sent money to the reunion before and they couldn't find it in your personal list of recipients. You can continue with the payment to that Zelle tag anyway, and the system will display the reunion info for your confirmation before completing the

transaction. Go ahead and click Pay.

Quick help

- What is Zelle?
- Contact not yet enrolled in Zelle?
- How do I receive money using Zelle?
- Where do I find my QR code?
- What's a Zelle tag?

A Zelle® tag gives business customers the ability to create a unique and customizable way to identify their business, instead of their mobile number or email, when sending, requesting or receiving payments

- The next screen will display the reunion account in the “To” field, your own bank account info in the “From field”. You’ll need to enter in the amount field for however many tickets you want at \$95 each, then click Next.

5. You get one last chance to confirm that everything looks ok – You can also add a message if you want, for example if you are bringing a spouse, you could put in his or her name as well as your own. Or not, it's optional. If you need to, you can click Edit to go back and change things. If it all looks good, click Pay and you are done!
